

18-155 WC Docket Number. Regarding! updating Inter carrier compensation. Regime
Conference Calling Services
We use this line a lot to listen to church services
funerals and its a big inspiration for my widowed
mother to listen to singing calls and family calls
We do not have radios or cd players and so
we rely on the phone line please let us
continue ~~like~~ it was! do not take away
Our free conference calling

As a taxpayer, and a free conference calling client, I ask you to please consider acting on WC Docket No. 18-155. My free conference calling services are currently at risk of being completely eliminated and costing me, millions of others and our businesses.

I am urging you to refrain from eliminating services that I and millions of other Americans use regularly.

Long-distance carriers will not be negatively affected, financially or otherwise, if free conference calling services are left alone. In fact, they stand to gain upwards of \$ 80 million.

However, if the FCC does decide to remove these services, I and millions of other American citizens and American businesses will be immediately and negatively affected. We will no longer be able to use these services for free and will instead be forced to pay for conferencing services provided by the the long-distance carriers if we want to reach our non-profit organizations, our families, our churches, singing calls, news calls, prayer groups, supports groups, board meetings, committee meetings, startups, schools, and global corporate communities meetings and their families.

Widows and other lonely individuals are finding comfort in this type of free free conference calling.

Do not take away my free conference calling services and further line the pockets of major long-distance carriers.

I ask the Federal Communication Commission to refrain from proceeding with its rule making in WC Docket No. 18-155.

Long-distance carriers will not be negatively affected, financially or otherwise, if free conference calling services are left alone. In fact, they stand to gain upwards of \$80 million.

However, if the FCC does decide to remove these services, I and millions of other American citizens and American businesses will be immediately and negatively affected. We will no longer be able to use these services for free and will instead be forced to pay for conferencing services provided by the long-distance carriers if we want to reach our non-profit organizations, our families, our churches, singing calls, news calls, prayer groups, support groups, board meetings, committee meetings, startups, schools, and global corporate communities and their families.

Widows and other lonely individuals are finding comfort in this type of free conference calling.

Do not take away my free conference calling services and further line the pockets of major long-distance carriers.

I ask the Federal Communication Commission to refrain from proceeding with its rulemaking in WC Docket No. 18-155.

Dear Chairman Pai,

I write to support the Comments of the Cable Act Preservation Alliance (CAPA) and to disapprove of the proposals and tentative conclusions set forth in the FCC's September 25 Further Notice of Proposed Rule Making in implementation of Section 621(a)(1) of the Cable Community Consumer Protection and Competition Act of 1992, NV Docket 05311.

I am a member of Community Media Center of Marin County and see what a valuable resource it is to individuals of all ages, genders, race and income levels with its classes in everything from basic shooting and editing to high level studio production, along with its wide range of available equipment which not only provides new outlets for individual videos, but for the community as a whole through its community cable station. By taking away facilities like this you are not only impoverishing the lives of many in the present, but also depriving media companies and outlets of all kinds of people whose skills and interest were first developed in media centers such as this one.

Thank you.

Very truly yours,

Burrill Crohn

WC Docket # 18-155 regarding:

As a taxpayer, and a free conference calling client, I ask you to please reconsider acting on WC Docket No. 18-155. My free conference calling services are currently at risk of being completely eliminated and costing me, millions of others and our businesses.

I am urging you to refrain from eliminating services that I and millions of other Americans use regularly.

We greatly appreciate how the conference line helps to keep us from getting so lonely. In this dark world it's one bright spot. When we are sick or in the hospital it's great to keep in contact.

We are getting older to the age of retirement. We really enjoy listening to the conference line. My Mother cannot go to her church anymore. She listens to her church service every Sun. We have limited finances. We would be very sad to have this taken from us. It is a way of relaxing every evening & keeps
